GADDIEL CUBICLE TRACK SYSTEM

Gaddiel cubicle Track system are installed in hospitals for providing privacy to patients. These are installed in ICU, Semi Private Room, VIP Rooms, casualty, General ward & Consultation Rooms. These are also installed in washroom (For shower cubicles) & in other areas as well where soft cubicles are required.

In soft cubicles, partitions can be done & removed by just sliding of curtains). These remain Wall mounted & ceiling suspended only, No. Space is occupied at floor.

- Specially manufactured attractive profile combines with smoothest performance, mechanical Strength & flexibility.
 - Gaddiel Cubicle track made of Alluminium alloy with 60 micron power coated finish, available in white colour.
 - The design gives Strength with great flexibility in layout whilst achieving clean unbroken line (as single price of track upto 16 Ft. can be bended, as per desired layout) & smooth movement of runners.
 - Grooves are made strategically in track for easy movement of runner.
- (If required, specifications will be provided separately)

GADDIEL CUBICLE CURTAINS
